

**PHILIPS**

ECG Solutions

# Philips EMR

Simple, seamless EMR integration  
for cardiac monitoring data<sup>1</sup>

# Philips EMR

## Reduce cost of care through practice efficiencies

- **Minimize time to securely enroll cardiac monitoring** services and access patient data—all transferred to your EMR as electronic HIPAA-compliant reports
- **Automated delivery of reports** once they become available with automated billing upon interpretation
- **Eliminate paper waste costs** and reduce mistakes related to manual data entry – including billing

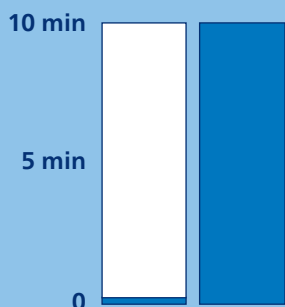

## Staff satisfaction delivered by our EMR team

- **15+ years of integration experience with most EMR systems** including: Allscripts®, Cerner®, EPIC, Muse™, Geneva, eClinical Works, NextGen®, Athena®, Epiphany Healthcare®, Meditech, and more
- Commitment to your facility's success with **EMR team support** that begins during the entire implementation and training process that continues after go-live

## Optimal outcomes with best-in-class technology

- **Flexible integration designs**, including enhanced bi-directional, uni-directional or customized solutions
- **A HIPAA-compliant and efficient user experience** with historical data storage, the ability to manage wearable and implantable technology, and Philips ECG Solutions Geneva integration with scheduling and DFT tracking

**30 seconds vs.  
5-10 minutes**

time taken to enroll patients<sup>2</sup>

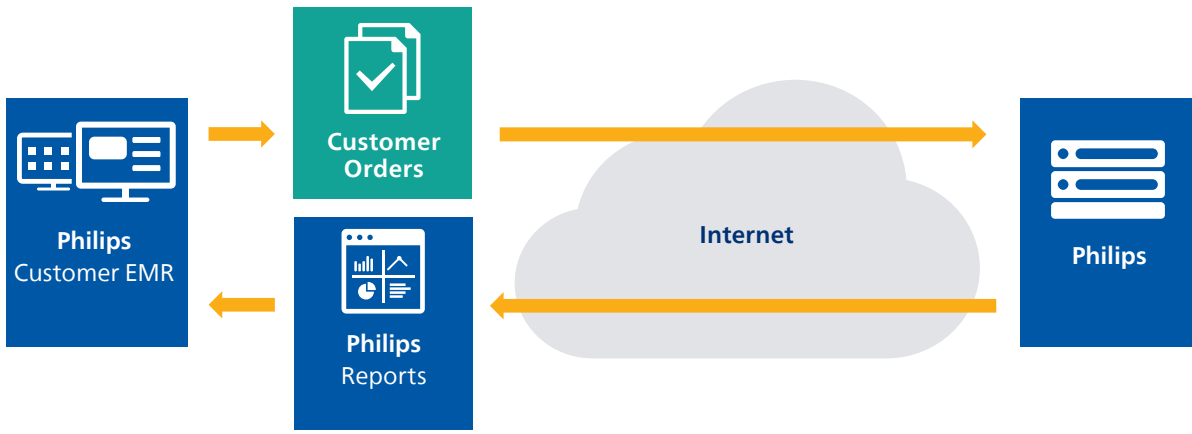

**10+ hours weekly  
time-savings**

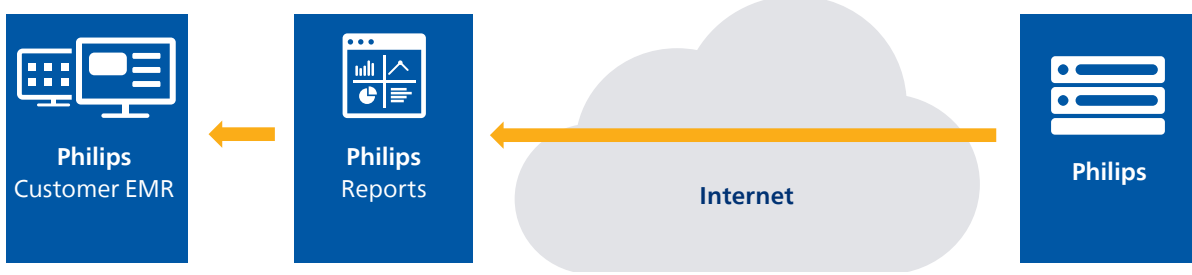

for scanning studies into charts<sup>2</sup>

# Philips provides the design best suited for your practice needs

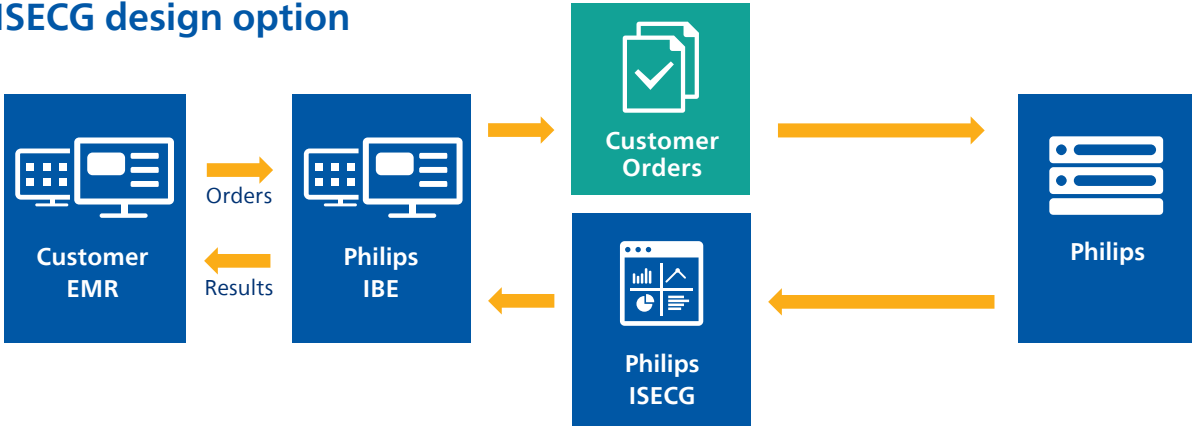

## Bi-directional design option

## Uni-directional design option

## ISECG design option

**1,300+**  
Philips ECG Solutions EMR integrated practices  
throughout the United States
